RE: "OCTOBER SURPRISE"

Dear Mr. Lamb:

Today's interview with Gary Sick about his book with the above title was a most interesting and informative review of a subject currently (and finally) in the news, and one of personal importance to me as per the attached flyers wherein I have publicly reviewed Barbara Honegger's book of like title on the same subject.

I was gratified to hear Gary Sick give full credit to Ms. Honegger for being the catalyst 2½ years ago to begin to uncover the O.S. "mystery" after a 8-9 year conspiracy of silence.

My question to you at this time is: Did you ever have Ms. Honegger appear on "BOOKNOTES" and, if not, why not bring her on at this time regardless of her book's so-called lack of newness?

After all, Ms. Honegger was an avid Ronald Reagan pre-election supporter, participated in the transition team taking over the Carter White House and was an important cog in the Reagan-Bush administration's Dept. of Policy & Development for 3½ years before becoming disenchanted with the Reagan policies. However, she refused to write her O.S. book until Reagan was out of office for obvious reasons.

Having the above information I hope that you may consider bringing her before the public for her explanation of the original "October Surprise".

We look forward to future interviews which we rarely if ever miss.

Sincerely yours
