C-Span
Channel 30

First we want to commend you on your wonderful program. We think its one of the best programs & we watch all the time whenever we can. We watched the nominee Clarence Hearing all week. One morning before a hearing started you had your caller & answer session. We can't remember who was giving the answers but always have a prominent person. This caller had made a suggestion which when we thought about it was very good. You may remember this but he said why doesn't

RECORDED
C Span show on T.V. whenever the Supreme Court is in session like they do when Congress is in session. We feel we can learn more how the Supreme Court Trials are conducted. & would be very educational. We enjoy watching all the Congressman & Dem & Rep conduct there meetings & etc. Also you call in calls & how lot of people ful.

How does one go about getting to make a call in to you for either a comment or a question to whoever is taking them.

Thank you
Sincerely
