

April 23, 1984

I watch C-Span because:

I have found C-Span is an alternative to soap operas and situation comedies which is of no interest to me. I prefer informative programs which let me know what is going on around me. I have an interest in politics and what goes on in Washington, D.C.

I have been in Washington one time and was very disappointed that I didn't get to attend a session in Congress. By watching the Committee meetings, I feel I am getting accurate information "first hand" and feel this is second best to attending in person.

I am a mother of four young adults and grandmother of three. This is one good reason I am very concerned what is happening now and what the future will bring for them.

I enjoy your "call-in" because it gives me an idea of peoples' thoughts throughout the different sections of the country.

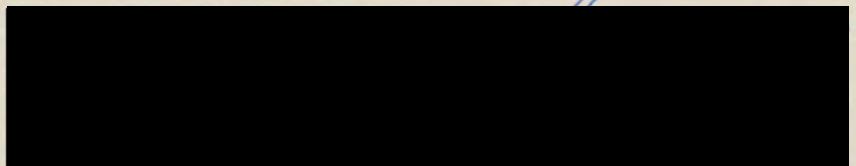

I have found, even though I may agree

or disagree with your guests, overall,
it is very balanced and not slanted
either way, which I believe is very important.

I would like to compliment you on
your interviewers. Each and everyone of
them are not only very professional but
all seem to have very pleasing personalities
which affects my interest in watching.

I would enjoy meeting any or all
of you at sometime.

Sincerely,

Centerville, Ohio 45459
