

Dear Mr. Lamb:

C-Span is a super public service. We have learned so much about our government. It gives us an opportunity to see our representation and to form our own opinions. *Thank you.*

However, the American ^{TV and} news media have failed to tell the truth about abortion. It is the destruction of a developing human being--denial of a human right.

It is violence of the worst kind--how can ^a mother make a decision to destroy her developing child? How can so-called well-educated women promote and support abortion?

Media has great influence on public opinion and policy. ~~It~~ ^{it} must carry great responsibility in the abortion violence. [REDACTED]
