Dear Mr. Lamb:

I have just finished lapping up your program on my TV today. And enjoyed that program, as well as several previous ones. And must say I admire your performance, plus the superb thoughts by Messrs. Lewis, Van Voorst, and Wallach. All of you are just brilliant.

C-
Span

A brief description of my current status, and career highlights follows:

I am almost 85 years old. My sister and I marched in a parade with Woodrow Wilson, in South Carolina, in 1916. Well, the kids and commoners walked, Pres. Wilson and top pols rode in open Packards or the like.

And I worked for the State of Florida Road Dep't. in 1926-1928. Worked for Corps of Engineers, U. S. Army, ~~Corps of Engineers~~, for 34 years. We built a levee along east shore of Lake Okeechobee; helped build dam at Denison Texas; work on Army jobs (construction) at Fort Sill, Okla., Camp Oji, Japan (in Tokio); military housing in South Korea, and the like.

I worked for the Miami Herald, as a small town correspondent in 1938.

Keep C-Span coming, please. Just superb. Thanx.
