Dear Mr Lamb

Pres. Clinton and his people Keep talking about America's need for jobs - and they are right.

Americans could create hundreds of thousands of jobs within a few months if they would buy only Big 3 cars. Americans are exporting \$35,000,000,000 worth of jobs this year.

Americans out-of-work while foreigners have jobs. Please ask that question - why don't you encourage people to keep their money working in America?
