C-Span and C-Span 11
400 North Capitol Street N.W.
Washington, D.C.

Attention: President.

My dear President:

I've decided to use this method of communicating with your organization. WHY? I've been trying for months to get through the MAGINOT LINE (calling 202 628 2525) and have failed.

Your network has performed a real community service to we, the citizens of our United States. Again WHY?

With C-Span and C-Span 11 showing the daily proceedings of both the House of Representatives and the Senate. We the viewer can see first hand the tactics used by the Democrats in blocking legislation, the changing of rules to benefit their own causes. The inability of bringing to a vote President Bush's many programs. I deeply feel that many of Ross Perots followers are viewers of C-Span and C-Span 11 That is why we are angry after seeing the legislators manipulate bills through their individual chambers. We are just sick of this GRIDLOCK. I myself am angry with Congress but not to the point of being a Perot follower. He's a neophyte to politics and has no idea on the mechanism of running a campaign.

Thank God he dropped out of the race.

I really feel that C-Span and C-Span 11 should receive an award when next years Emmy Awards are given. I feel that your organization should receive an award for COMMUNITY SERVICE.

I want to pay special tributes to two of your people.

They are Brian Lamb and Susan Swain. They spend hours and hours talking to individuals and NEVER express their individual opinions. Watching this two operate doesn't help the sale of digestive products. We don't get upset watching this two people. They are the greatest twosome on TV. AMEN! May I request at this juncture of my letter that a copy of this letter be given to each of these two great people. In addition, would it be possible to have a copy made part of thier personnel records? During the recent political conventions, your organization showed endless hours of TV without interruption and comment.

Many of the callers have expressed the same view. I think poor Brian and Suzan are running out of breath thanking each caller.

August 21, 1992

Today, viewing C-Span the people are continuing their praise for your organization. You are the greatest.

Now, on the lighter side of life. I really enjoy the selection of music that is played during the voting process in both houses. It makes my feel so relaxed.

Again, no matter what avenue I touch on your organization, there is nothing for praise for your organization. I'm still convinced that C-Span and C-Span 11 should be given a special award during the Emmys for your contribution to the voting interest of we American people. I further suggest that Ted Turner drop both CNN and Headline News. I think you people should take their place. We don't need dummies like Bernard Shaw who is still shaking from the first night of the Persian Gulf War.

Again, please place a copy of this letter in Brian's and Suzan's personnel file.

Sincerely,

A large black rectangular redaction box covering the signature area.
