His comments help divide people

This morning, you had a man on your Roundtable program who is disgusting. Tavis Smiley. He is so brain-washed in liberalism and hogged the conversation. As for tobacco-- your other guest is right---NO ONE FORCES ANYONE TO DO ANY THING TO ENDANGER THEIR HEALTH--DRUGS, ALCOHOL, SMOKING AIDS, VD, ABORTION IN MOST CASES. It is time people start using common sense instead of trying to justify their own faults. Smiley's "the answer is very simple" is showing just how ignorant he is in this thinking. That was his reply to whatever he didn't agree with. He also has a chip on his shoulder about magazine covers. In most cases, these portray the truth. If we stop looking at skin color and try looking at the person and what he/she stands for, we might not have such a bias. We should all defend what is right and we should all fight what is wrong, no matter who or what one is. We do not enjoy programs with people like Tavis Smiley or anyone else who goes on and on about nothing except his own bias.
