Dear C-Span Crew,

Do these over privileged Children of the household who naturally throw tantrums when they are not indulged, want the Watch dogs called off or put on a leash? Do these people whose letters were read Friday morning on your call-in program want a Closed society? (except of course for their opinion)

These people, for whom the "D" word must not even be mentioned, would think it was quite alright that I have not heard one word about or from my son for one and a half months. I have called every information number available, found out nothing except he was not on the "dead" list. I have also written finally, in desperation,

to defense Sec. Cheney. My son
who was inactive Reserves,
enlistment of six years completed,
~~no~~ adequate military training,
was given three days notice, sent
off in short order to Desert Shield
now a Storm.

I tried continually to call in
to your program to no avail.

These Watch Dogs, the news media,
who are sometimes annoying, are
vital to a free Democracy.

Please, since I ~~was~~ unable to get
through to call, show this to the
Watch Dogs to encourage them.
