Dear Brian

I am so thankful for C-Span! It is the only place where there is any effort being made to be objective.

Brian, what I would really like to see is a segment devoted to the Bill of Rights and the Constitution. The American public has become so lazy that we don't look up anything - we just blindly follow whatever the media says.

If your program would actually read the Constitution and make the Supreme Court Justices and our reporters and lawmakers

Address what is actually
written!

As an objective host, I
would request that you
personally hosted this segment
because I think you are
strong enough to "call" them
on it when your guests
try to manipulate the facts.

Thank you for your consideration
of this matter!

Sincerely

Bakersfield, Ca 93312

Dean -

I also read recently that there is no actual accounting as to how much money we spend on the White House - maintenance, staff salaries, private dinners, etc. I think many of us would find this interesting. Bi-Partisan - we foot the bill, it doesn't matter who lives there!

Also - during the recent hearings they said that the President has 3-4 thousand "political appointees". I would love to hear about this - I thought we had eliminated the "spoils" system! I bet other people would be interested in this also.
