Both men
had children
very late in life

Dear Sir:

Watched your series on the Presidents
this summer and thoroughly enjoyed them.
Have a question, that I've
been trying to figure out.

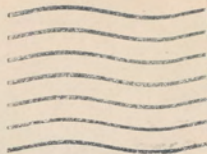

On John Tyler, this summer,
you had a person who stated that he
was the Grand son of John Tyler. Since
John Tyler was President 1841-45 and
one of his sons would be his father.
Just what ^{year} would his father be born in?
Grand son was in the 80's. That's the
part I don't understand. John Tyler
died in 1862, so his son would have to
be born before then. Seems like there
too many ^{years} between son birth and Grand son
birth. If he ~~was~~ his Great-Grand Son,
Could understand it better.

Thank you

Sincerely,
