Washington, D.C.

I appreciate your programs so very, very much. Maybe someday your program can be viewed as easily as Public Service Television and not through cable television. I would think that would add enormously to the education of we citizens.

Would it be possible to have a rolling super-imposed roll call list showing vote for such votes as the one on NAFTA?

As it is one must listen very closely for the Senators and there is just nothing on how one's Representative votes.

Just wishing.

Yours truly,
