In regards to bias in the liberal media coverage, I have to wonder why we have seen or heard nothing concerning the killing of the American soldier in Haiti a couple of weeks ago.

We usually get the whole nine yards in such a case, including the return of the body to Dover A.F.B., the funeral, and the usual boudoir of the family.

Could it be that the Clintonites don't want the public reminded that we still have people at risk in Haiti? I wonder!!

Now a question; Where, the world wonders, is George Stephanopoulos?? (Spelling may be wrong) Have you guys in D.C. seen him lately?

Thanks for C-Span - Watch it daily on my dash.
