

I enjoy watch the "Special Order" speeches of Mr. Major Owens (D) New York. His "Black History" speech the first week of March, 1998 was powerful. Can we hear the speech again on a weekend?

Dear Mr. Lamb:

As an Afrocentric feminist, and a liberal political activist, I wish you would go to colleges, and universities to tape "live" public lectures from moderate to liberal political activists.

As you know, March is "Women's History Month". I have seen too many programs honoring the achievements of women - then and now - on C-Span 1, or C-Span 2.

Mr. Lamb, on June 19<sup>th</sup> in Chicago black activists all across America will be in Chicago for a "Black Radical Congress." The purpose of the meeting is to revive and rebuild the spirit of Black militancy and social justice.

within all black communities according to Dr. Manning Marable of Columbia University in New York city.

Endorsers of the meeting are as follows: Authors Amiri Baraka and Angela Davis, feminist scholar Barbara Ransby, Los Angeles Political activist Anthony Thigpen, and Dr. Cornel West.

Please show the "Black Radical Congress" on C-span 1 and C-span 2. Please show some segments of the meeting. Tape a few speakers and show segments after 8:00 p.m., and during weekends.

Contact Dr. Manning Marable at Columbia University in New York city, and ask him if you can show "live" segments on the air (C-span 1 and 2), and taped segments.

Brian, please do this program for me. White folks need to know about the growing black militancy in America.

Please invite Ken Hamlin on "Booknotes" to discuss his sick book titled: "Pick A Better Country: An Unassuming Colored Guy Speaks

His Mind" by Ken Hamblin who was raised on welfare in Brooklyn. Now, Hamblin is saying blacks living on welfare are black trash.

Allow Ken Hamblin to tell his lies on "Booknotes."

March is "Black Press Month." at Howard University sponsor a program titled "Who Reads the Black Press?"

Guests journalists should be as follows:

- ① Jill Nelson, Black female journalist, and author of "Straight, No Chaser" Please have her on "Booknotes".
- ② CARL Rowan, Black journalist, and author of "The Coming Race War in America".
- ③ SALIM MUWAKKIL, Journalist.
- ④ Frank Wu, Law professor at Howard University.
- ⑤ Rodolfo de La GARZA, Latino. Political analyst.
- ⑥ Mary Frances Berry, Chairman Civil Rights Commission.
- ⑦ Bernard Shaw - CNN.

If you cannot have the program "Who Reads the Black Press" in March. Please have the program in April, or May 1998.

I am a loyal Clinton supporter, and I hope the Republicans will learn soon enough that many blacks will do protest marches, if President Clinton is impeached. A lot of people in the 'Hood are not talking about non-violence. We do not want another Ronald Reagan Clone in the white House in 2000.

Do not send me a return letter because I never get any of your letters to me. The manager in this housing project is a black man who was fired as a police officer. Now, white people are using him to get political activists, and drug-heads in our neighborhood.

I know he has given someone the Key to my house, and mailbox to find out who I'm writing and what I'm saying about white folks. Bigots in South Carolina are using the black man to get to me. He's not that smart.  
Thank you.
