Social Order vs Military Order

The pending executive (gay social) order July 15, 1993 by the current president has no relationship with the delegation of military authority.

Social orders are politically driven and has no bearing on the obedience of military service laws.

Military orders are to be carried out if they support mission goals. All military orders should be carried out ! Social direction I do not have to accept.

Sincerely,

Memorial Day: The Price was High

The Vietnam Memorial Ebony Wall was dedicated to the service members who soaked the ground and waters in Southeast Asia with their blood. They loath death !

Any ceremonial at " the wall " that includes the "Hell No I Want Go" generation is not honored.

It would (almost) be like inviting gestapo troops to the dedication of the Holocaust Memorial in Washington, D.C.

Sincerely,
