

BRIAN - I'm writing to express my bitter
& disappointed in C-SPAN's decision not to carry H.
Ross Perot's testimony concerning NAFTA. I believe that
your organization was pressured not to carry it. The
other major media groups blacked it out too. It's quite
obvious that the wicked cabal that controls this country
doesn't want the American people to know how this
insidious agreement will permanently damage them. I don't
blame you for being the line. The New World Order folks play
for keeps & one only needs look at the Danny Cassalero incident
to see what they are capable of doing when crossed. One just
might end up floating face down in the Potomac if one
differs too strongly with the Establishment.
