Dear Sir:

I greatly enjoy the coverage that is available on C-Span. However, I frequently have to stop listening because of the amount of noise (static/hum/?) coming with the audio. My cable service comes from Prestige Cable TV, Stafford, VA 22554. When I complained to them they said the problem originates with C-Span and that they had informed you of the problem

This problem has been around more than a year. When are you going to do something about it?

Yours truly,
