Gentlemen:

Tonight (Saturday) I watched your callin program which was recorded Friday.

I do not understand so many calls so critical of Clinton's speech and the program it set out.

I have friends and relatives who supported Clinton, some Perot and also Bush. With one exception they all agreed it was a very effective presentation. My son-in-law who voted for Perot and who will be affected if the taxes are raised, still feels that

The suggested program will help business in the long run.

I firmly believe that there are callers who claim they voted for Clinton but are "disgusted" (and other epithets) are for the most part Bush supporters and voters.

There are a lot of Soer grape poor losers who call in, as well as some honest callers. However, it's like there are few compromisers or people who want to get together and help our President succeed for the good of all of us.

And for God's sake let's all show respect for the man who was elected by

3
a majority of the people.
As ~~Harvey~~ ^{Freeman} told General
Douglas MacArthur - "you
may not like me - but I
expect you to respect the
President of the United
States".

I enjoy your program
but I do find the callers
do not reflect the polls
I have been reading.
I also believe most members
of panels on media programs
are in income brackets that
will be taxed more than
a lot of us. I am willing to
take a hit if it will help
our country.
