Dear Mr. Lamb:

I truly enjoy C Span, especially the Journalists' Roundtable. It is amazing to me that many members of the Press are baffled by the amount of resentment that abounds. I'm not one bit perplexed. Many Americans who listen to C Span (rather than M TV, or the Simpsons, or many inane talk shows where people with no pride bare their souls to the world and try to top each other with crudeness and nonsense) are the segment of the population who pay the bills.

Let me say we are no more vicious today than Ann Richards and her "Where was George" routine, and occasions too numerous to mention here. Suffice to say, the spelling of potato concerns liberals more than leaving a person to drown without doing all in your power to get emergency help, and Sen. Kennedy is hailed as a hero; Rostenkowski can take candy from a baby, and the public should understand he did so without malice; on and on and on.

Let me be perfectly clear - POLLS ARE ^{ONLY} SLIGHTLY ACCURATE.
A truly good poll would first ask: ARE YOU EMPLOYED?

2) Are you in the private sector or
are you a Government employee?

3) Now ask your question.....

The blood suckers will want whatever they can get for free.

Government employees benefit when BIG BROTHER gets meaner AND BIGGER.

I fear America is losing LIBERTY and FREEDOM while liberals have their blinders on trying to do good. The best favor you can do another person is EDUCATE him, teach good moral values, and stop making excuses for slovenly behavior. If liberals could really see the fraud, deceit, that abounds among the SMART CATS, while the taxpayer sits helplessly hoping a miracle happens and we can get a Statesman elected. Fat chance with the takers outnumbering the givers.

Down with Socialism, and allisms.

*I don't want any hand-outs
including health care! (over)*

What I can't stand anymore:

① "Look what Clinton has done" —

In fact if Clinton could not pass what he wants with a Democratic Majority what else does he want.

Stop Blaming Grid-lock

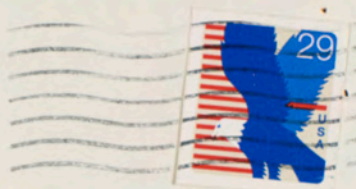

What we have is BRAIN LOCK.

If the electorate is as stupid as it appears to be, we are dead in the water. Why knock ourselves out when with a little faking we can be cared for from the Womb to the Tomb.

My proud Italian ancestors taught me too well I guess!
