

111 We appreciate C-Span.
It is by far the best
station on national T.V.
You do an excellent job.

White Water must be
investigated to the fullest.
In my opinion Clinton is
a phony, a liar and we
do not trust him. Had the
Clinton's put everything out
and been honest and upfront
when this all started it would
not be a big thing. I still
do not understand what
happened with the removal
of papers when Vince Foster
died. That is strange.

No poles are ever taken
in this part of the country
that I know of. I know of
no one who has ever been
called. I wish the States
called would be listed. Are
they done in secret to protect
the President? ABC, CBS and NBC
are very biased.
