Mary Frances Berry —  
U.S. Commission on Civil Rights

is described as "Chairman."

Certainly, that makes no sense visually  
or ethically. (Unless she has requested to  
be so described, ....!)

I doubt there will ever be an instance where  
a male executive will be described as  
"Chair woman," and rarely "Chair person."

Let's use the gender neutral term of  
Chairperson for all. Especially on C-Span we expect  
to find women treated with the same courtesy with  
which males are treated. Thank you —

Mr. Brian Lombs

C-Span

Dear Brian:

Sorry for the July 4th Holiday reprieve where we  
were seeing some promiscuity again - C-Span  
has essentially disappeared from me. Right now I'm  
watching Neut on Press Club Five, and he's advocating  
business or private take-over of Public Schools.

For such a blunderbuss there is really very little  
suitably strong resistance to him from the press.

Yet I feel as though we are in a new McCarthy  
period. His blaming "values" for problems like this  
fellow hate-mongers have helped create, i.e. guns  
in school. As the GOP (Crossed Paternity?)

has fed fear, Crime as a problem of African-Americans,  
we have as an African American problem, except  
when he blames women and their lack of care  
of their children - while cutting social budgets  
and taking money from the Natl. Rifle Assoc.

Those who understand what is being done are  
numbed, depressed. Those who don't cheer him on,

✓ Surely this GOP leadership will resist the  
hot-heads overabundance — for a time. They  
understand very well, it is only a matter of time.  
In order to return to a white male predominant  
society — blacks, women, gays must be  
oppressed. There is violence in oppression —  
the politics of it, even when based on legislation  
which seems benign.

The Violence done by the Supreme Court (think  
of Clarence Thomas, a black man, a lover of  
hard-core pornography) and his betrayal of his own  
people is based on greed and fear. Yes there are  
some bred in the bone fascists like Scalia —  
but mostly we see greed as the enemy of human justice.  
Money & Corporate Power now controls Congress —  
the parties — (at least 50% of the Democratic Party)  
and the public doesn't even fully understand  
that yet —

Best Wishes Brian —
