Re: TCI Cablevision of Utah, Inc.  
C-SPAN coverage

To Whom It May Concern:

Enclosed is a copy of a letter I've sent to  
my local cablevision company protesting the  
deficiency of its C-SPAN coverage.

Yours truly,

Re: C-SPAN

To Whom It May Concern:

Of the many advantages a cable subscriber enjoys, I think the main one is the opportunity to view C-SPAN. I remember what a boon C-SPAN was during the 1992 Presidential campaign. Its presentations, particularly on weekends, gave voters a wealth of information they'd never had access to before. Many of us feel we cast truly informed ballots as a result.

I'm sorry TCI has seen fit to change so felicitous an arrangement. The sharing of one of one channel by American Movie Classics and C-SPAN is a great disservice to your subscribers.

As a protected monopoly TCI has an especial obligation to its customers; there is, after all, no competition offering alternative choices. Won't you, therefore, please find a way to return full C-SPAN programming to local cablevision. We still need an informed citizenry in this country, and C-SPAN is essential to that goal.

Yours truly,
