Dear Mr. Lamb:

My students and I had a fantastic experience by attending the Close Up, Washington, D.C. trip the beginning of February for one week. We were grateful recipients through generous support of the Close Up Foundation and overall supporters like yourself through their organization. Close Up was overall the very best high school educational experience these students will have had during their four years on our campus. Close Up teaches more than just history and how our government works, which is extremely important. It also teaches young people how to interact kindly with each other, to be open-minded and critical thinkers when learning about other people's problems around the country, and how together we can make a difference to improve our nation and the world. My students enjoyed the opportunity to meet young people their ages from various parts of the United States and to find out that similarities were much more important than differences. I think the best compliments you could have about the experience is to find out that 80% of the group intend to go next year, that 90% of them said one week was too short, and all of them said it was terrific, much more than they had hoped it would be.

Our Acalanes school district is extremely grateful for your support to Close Up and for giving these students and us teachers this remarkable, educational experience.

Sincerely yours,

[REDACTED]
