I WATCH C-SPAN BECAUSE....

I find that C-Span Programming is of excellent taste and understandable to the ordinary lay-man. Unlike other facsimiles of programming, C-Span covers a wide spectrum of political conventions, panels, and platforms of interest to...not only the Minorities, but to all of the people, who take an active interest in the complex political structure of our great country. Since watching C-Span here in Hawaii, my knowledge of the political entity of our society, has been greatly enhanced.

I was equally impressed by Mr. Carl Rutan's expertise as a mediator between guest and the participating public. That in itself is not only interesting, but adds credence to my own views and beliefs.

When I watched my first C-Span program, I found it very refreshing, in that the program always gets down to the crux of the problems and issues involving the guest speaker, Mr. Rutan, and the audience participants...whatever the subject may be. I was appalled, that some of my friends and co-workers had no knowledge of who their congressman, Senator, and/or representative from their district was. If this is an indicator of the people of the Nation as a whole...then we're in trouble. Complacency, can be a sickness that will spread very rapidly and the only cure is awareness of what is going on within the Government. C-Span has the unique formula for this enigma by virtue of it's excellent programming. Absorbing different points of view and voicing one's own, is what Democracy is all about and C-Span does this with excellent expertise. This is why that I watch C-Span and will continue to do so, because I am a concerned citizen and although this Country is not perfect by any stretch of the imagination, it is still the best Country in the World to live.
