Dear Sir

I am writing you to request more coverage of Governor Clinton's speeches. This week we read in the papers that he was to make a speech on the environment.

On Wednesday I was off and did tune to your station a lot, but everytime I did something was on about abortion. So if you did cover this speech my husband and I never saw it.

I also tried to catch what was to be presented that day & week and still saw no mention of this being shown.

There seems to be a lot of Ross Perot coverage on T.V., but not enough coverage of Governor Clinton.

I do like your station a lot and feel it is very informative and I commend you. But I would like to see more about the Governor ^{as well as other} ~~and other~~ candidates.

Thank you
