

4/21/34.

To whom it may concern:

Perhaps this message in long
hand will be discarded, believe it or
not, there are a few of us in your
medium that do not have typewriters, But

We are fortunate to have access
to C-Span.

Re-Contact Offered to Viewers
of C-Span.

4/21/84

I created C-Span because it is the one means of available information offered to John Q. public on varied programs, showing timely and interesting subjects. The viewing audience (pro and con) are able to offer personal opinions that help to make others aware of so very many complexities that society is confronted with at this time.

Coverage of our House debates in Washington, D.C. or the process of in depth debating among fellow Americans seeking public office, truly enhances ones knowledge regarding individuals position in his own selection and endorsement of particular people qualified to best serve all the people in this country and in turn bring about the brotherhood and sisterhood of freedom around the world.

The cherished gift of Freedom of the Printed Word remains a treasure to me (clean) and your program viewing enforces once again that in our democracy, the individuals personal thoughts are of his own choosing and will not be dictated to by the masses even if at times we find ourselves in the minority giving way to the majority in numerous circumstances.

May I commend C-Span for the caliber of media persons, who daily share their lines with me. (indeed, you all have command of the English language, or as Ed Newman would say, you don't butcher the King's English.)
