Today I stumbled
discount town here
the used political section
across a book by Joel Bainerman
called "Crimes of a President". I
have been an advocate of such
political issues for over 10 years
and frequent book stores very often.
This book was published in 1992 but
I never saw it, "ever", in any book
store including BookWorld, Dalton,
or Waldenbooks. Please address this
book and author if you can. It
is an eye opening revelation of
the corrupt and secret agendas in
the 12 yr. Reagan - Bush Regimes.
I have a feeling this book never made
it to the shelf or was part of a massive
buy up!

Dear Brian,

There is this book I stumbled across by accident at a discount book store in my hometown here in Florida. I was in the used paper back section of political science, when I came across a book by Joel Bainerman called "Crimes of a President". I have been an advocate of such political issues for over 10 years and frequent book stores very often. This book was published in 1992 but I never saw it, "ever", in any book store including BookWorld, Dalton, or Waldenbooks. Please address this book and author if you can. It is an eye opening revelation of the corrupt and secret agendas in the 12 yr. Reagan - Bush Regimes. I have a feeling this book never made it to the shelf or was part of a massive buy up!
