

Dear Sirs:

I watch C-Span because it makes me feel as informed as if I were a U.S. Senator. As a matter of fact, there is no other news channel that delivers nearly as much insight into the working mechanisms of our governmental system. When I'm watching the other news programs, I am left with the feeling that the reports on our government and/or its operations are taken out of context. With C-Span you get the COMPLETE PICTURE of what is actually taking place. C-Span gives me that "personal involvement" for important national issues that I can't find anywhere else. C-Span gives me the in-depth coverage and first hand interviews - with the newsmakers - that no other news team can do. Sorry, I have to go now and get back to C-Span's coverage of today's political and national news.

Sincerely,

Hayward, Calif. 94541
