April - 1998

This is an open letter written to the attention of many entities, including the Supreme Court, Judge Susan Webber Wright, newspapers, radio, T.V. media, select members of congress, and certain personal individuals. It is the opinions of the author, and at her discretion as to whom this letter is sent.

This letter is explicit, frank and to the point as far as material. The author believes she is in the majority as far as the belief of the American people about President Clinton, and the presidents high poll ratings bear this out.

The news media feeding frenzy on the presidents alleged sexual entanglements would be funny if it wasn't so pathetic. In this media madness, all the old foggies, Evans & Novak, (R) Bernard Shaw, Bill Bennett, Bob Franken, Newt Gingrich (R), Henry Hyde (R), Orrin Hatch (R), Dan Burton (R), Bob Barr (R), Brian Lamb (C-Span) John Whitehead, (Rutherford lawyer), Ted Copple (ABC), Larry King (CNN), Trent Lott (R), Sam Donaldson (ABC), Tom DeLay (R) TX, G. Gordon Liddy, Richard Cohen (Washington Post) Lou Waters, (CNN) Wolf Blitzer, Ed Koch, Dick Armey (R) Tx., Oliver North, and other talking heads, getting their jollies talking about the president's sex life, when all of them probably couldn't even get it up!

The dog-ugly, Penthouse Pet, Paula Corbin Jones and her side kick bleached blond bitch, Susan-Carpenter McMillan should have been kicked out from the git-go. This shameful sham, fueled by John Whitehead (R) Rutherford Institute, Jones attorney. The Dallas attorneys from Rader, Cambbell, Fisher & Pyke, David Pyke and Wes Holmes should be drummed out of office. They were all three disgusting and acted like the shysters they are. Her first lawyers, Joe Cammarata, Davis, and their co-harts were even worse. The Rutherford Institute should be throughly investigated.

Susan Webber Wright was intellectually right when she ruled the case be tried after the president leaves office. Thus, the Supreme Court was grossly derelict in their duty when they reversed her decision. They alone bear all responsibility for their neglect to act in a positive manner. They should have foreseen the furor, repercussions and the mass media side show circus. Their actions were inane and directly degraded the office of the presidency. part in this fiasco. Four years of investigations at tax payers expense of over \$40 million and still counting is asinine. It is an outrage when Starr can inflict economic hardships on the average American citizen by hauling them in at will to testify at a grand jury. It is doubly outrageous that he can bankrupt the president of the United States. This is ludicrous. Ken Starr is a prejudiced partisan vindictive republican, and his underhanded tactics has been ruining lives for four years in Arkansas. This is outrageous and a travesty of justice to the people of Arkansas.

The republicans are using all of these repetitious investigations to try to bankrupt the Democratic National Party. Campaign finance was a joke! Why is it the GOP think they are supreme and the only ones with family values and the moral high ground?

Lucianne Goldberg, Linda Tripp and Monica Lewinsky was spawned as another sham. This was a set-up from the start. What angers the American public is that Goldberg and Tripp seem to be getting off scott free. Trip is a known trouble maker and liar. To still be employed by the Pentagon and paid at tax payers expense, plus living at a safe house, raises the public ire. In my opinion, she is recieving big bucks from someone. We don't need someone of her caliber working for the Pentagon, or anywhere else in the government. She should have been fired immediately.

Frist Lady Hillary Rodham Clinton was absolutely correct when she named a "RIGHT WING" conspiracy. Speaking of right wing conspiracies, isn't it ironic that it all stems from Virginia. The Rutherford Institute (Conserative) in Virginia, Linda Tripp (Virginia) Ken Starr (Virginia) and Pat Robertson, (R) (Virginia) Christian Coalition (Virginia) Oliver North (Virginia) and the home state of many more Clinton haters.

It is people like Kenneth Starr (R) San Antonio, Dick Armey (R) Irving, Tx., Tom DeLay (R) Sugarland Tx. and Bill Archer (R) Houston, Tx. who make us honest people in Texas, ashamed to be Texans.

Jerry Falwell and Pat Robertson make me sick. Professing to be men of God, they carry on attacking the president, giving christianity a black eye. Jerry Falwell is a charlatan, and should be prosecuted for his part in the Clinton chronicles. This is blatant distortions and falsehoods.

open letter - page three

William Jefferson Clinton is one of the finest and most popular presidents we have ever had. He has been trashed for going on five years now by his critics, who just couldn't stand George Bush losing the election. Bush's four year tenure was a total economic disaster. Clinton haters just can't let go!!

President Clinton has a very fine and talented wife, and a wonderfully proud and bright daughter. The president has tremendously persevered through out this whole mess with great dignity and stayed focused on his entire agenda. He has acted with professionalism at every occasion.

It was not the president who has demeaned the White House, but the news media and the redundant actions of the Supreme Court. It was the talking heads espousing oral sex, genitals, and semen stained dresses over the air waves, not the president.

A BRIGHT SPOT - April 1, 1998

Before I could finish this letter, a courageous Judge Susan Webber Wright has rendered her decision to dismiss the Paula Corbin-Jones law suit. Thank you Lord!! At least one person has some common sense and decency. God bless her and God bless America!

It is too bad Attorney General Janet Reno doesn't have some of her spine. If she did she would have fired Ken Starr years ago.

As far as the Kathleen Willey situation, I believe it was completely innocent on the presidents part. Someone has apparently gotten to her with the big bucks. Being a volunteer worker in the democratic party and presidential campaign is irrevelent, and does not lend credibility to her account. Everyone knows how relatives turn on one another at the reading of the will when large sums of money is involved.

Now I have had my say, and no I am not some "kook" or radical extremist. I am a 62 year old housewife of over 40 years, with a wonderful husband, two fine grown children and one ten year old grandson. I am a christian woman, who like most Americans, believes in fair play and justice for all.
