[REDACTED] Dennison, Ohio 44621

Dear Sir/Madam:

I was watching C-Spa early this morning & am quite distressed at what you had viewing.

In fact I am more than appalled at seeing the Prime Minister of Red China speaking on our American television.

Our democracy is still in its infancy stage & needs to be protected from either physical or verbal invasion by the Communist Party, which the latter you aired last night early this Morn.

I believe the airing of the Chinese National People's Congress is subversive in nature. By airing the communist ruling system on our supposed free air waves of the United States of

o. China

America is undermining not only our basic belief system of Christianity, but also undermines our cultural heritage of democracy. And I do value my rights under our free democratic society.

I do not appreciate at all my television's ability to broadcast the prime minister of Red China speaking to his 'National Peoples' Congress, whose name is an oxymoron. I want this stopped immediately! You had no business airing this on our air waves - did you poll American viewers, of the older generation, if this would be acceptable to them? No, you did not - you merely took it upon yourself to take advantage of your broadcast powers to further harm America's conscience & belief & value system & choice of government - democracy.

3

This just cannot be tolerated
in America, and I will not stand
for it! You're promoting the
communist propaganda of
Red China, thereby victimizing
the poor, uninformed, uneducated
people of America.
This must be the last time I
see Red China on American
television!!!!

Miss
