Sirs,

I would appreciate if you could forward the following note to Dr. Madalyn O'Hair. I am enclosing an envelop and \$1.00 for mailing expenses.

Dear Dr. Madalyn O'Hair,

Unfortunately I only tuned C-SPAN at the tail end of your great talk at the meeting of the American Atheists in Florida. I have been a convinced atheist for the last 34 years but I never knew about your organization. I would like to become a member of the American Atheists and I would like to purchase the video tape of your great talk at the above mention meeting. I studied at MIT from 1949 through 1956, and since then I have been a faculty member at Caltech. I have known thousands of scientists during the last 40 years and among these no more than ten believed in god. However, we do not complain about the insults that we have to endure every day: "In God we Trust", etc., etc.. There are a few politicians who have publicly admitted that they are gay, I do not know of any politician that has admitted that he is an atheist! How can we get our fellow Atheists to be more vocal and politically involved (and more honest)? It is a strange thing: we are proud of being etheists, but many of them do not want to admit it!

Sincerely,

P.S.

Today, at six in the morning, two very nice Martians knock very gently on my window, they were green and very thin. Very nice fellows! Proof to me that I did not see them!

Forward
