

Dear Brian Lamb;

I've been going to write you this letter for the last week, but until you got three more establishment newsmen on Sept. 24th that told use all the bull about NAFTA and that guy called in about getting a panel of working Americans on your show. I couldn't get going, so then I got going, if you can't find any establishment newspeople that are against NAFTA and will tell the truth about it, you can call up the Spotlight I'm sure you will find some over there.

Thank You
