Dear Brian,

I watch C-Span all the time and really enjoy it so much. Will you ever have Gov. Clinton on? It seems that you give so much time to Jerry Brown and it's not fair. I want to see Clinton sitting with you one day in all fairness. Also, I watched your show the morning recently that the phony caller (man) tried to disguise his voice with the ridiculous story about Bill Clinton being HIV-Positive. Couldn't you tell the guy was trying to really do harm to Clinton over the air-waves? I couldn't believe how you actually let that go over your head. Don't you think that C-Span gets crank callers? They're all over the country.

I still think you're great, you and Bruce, and I especially like it when you ask the callers questions about their politics!

Regards,
