Dear Ms. Armstrong:

The clever positioning of a Jewish apologist on each and every one of your call in shows, has without exception or exclusion among the majority of the viewing public, do nothing but support and confirm, the absolute need for these ? people to have and strongly maintain a control of the press that may bring into the light of day, the many, many outrageous actions, that they are associated with. be it the individual, the country of isreal, or their associated groups or organizations. Their treatment of the Palestinians, their willingness to out right spy upon this country, (which has been on going since the Rosenbergs, and probably before), thru to today.

Neither you nor I have the time to go thru the litney of volumes of events, some anti-christian, many anti-American, or at very least the interest of America is not their first priority, thru Ivan Boesky et al, to illustrate the needed proof in support thereof. Mr. Lamb is, as we have discovered a master as such an apologist, and Daniel Shore, well we dont really have to explain this do we.

Our recent return from Russia, which trip has absolutely explained the many missing details of the 1916 Trotsky (aka Braunstein of St. Louis and N.Y.) slaughter of millions of Christians, than all the many books that we have read on that subject, notwithstanding the years of controlled press releases, setting up an intended false history lesson of a failed jewish idea.

I don't want to hear anti-semitic, there are many semities that are non jew and great people, this is calling a shot a shot, they are what they are, and history shows us that they are getting worse, rather than better. October Surprise (wait till this hits) is a case in point. The israle lobby is another, with all their PACS paying all the congressmen, do you really expect the American people to buy this line for much longer, with or without your apologist in place. ?--- We'll see. but we note that Lamb is working overtime in his stress position. he's loosing it quicker and quicker day by day. It's getting fun to watch. And America is watching!!!!!!
