

Franklin, Pa
25 Jan 1999

Allen Steve,

There is one good coming from
No Cable - No CNN - so I don't
get the liberal spin.

This study on the other avenues
to get a spin is making progress - The house
is already wired for Cable - Actually it has
so many cable outlets I assumed that one
phone call would get me cable service -

I now am in process of getting in
on Direct 40 - and all others - In meantime
I have the satellite car out with NBC abc CBS
along with Lim LIEB - NATIONAL RADIO - and all
the local No - Franklin and nearby city radio
stations -

By the time you read this I will have
a fish and can hear as LITTLE WILLIE is free
of his senate trial - what a cover up by Trent Lott -
Keep up the good work -

O. cable
L

Only a guess but I say DICK MORRIS DID this
through Trent Lott -

25 Jan 99

Steve

Just before I left Hendersonville
our Monday night radio show call in to
a public affairs program had a report
that our Congressman visiting the Philippines
had been asked ^{by the Philippines} to look into CHINA taking
over some islands within the 200 mile of
the Philippines - Our State Department
tried to stop him from going but he
went anyway. Looks like our State Dept
is still filled with Commies - Years ago
they had the No 2 and No 3 slot.

The CHINA POLICY will rise up
to bite us - CLINTON will be gone but
the American people will be the loser.

I have heard nothing of this
from any media - The retired Col who
chaired the radio program retired from
the Pentagon two years ago. Now he has
two others just retired from Pentagon with
contacts still there to feed info. You might
want to look into the Congressman who visited.

Steve,

27 Jan 99

Things looking up with three witnesses
now being considered and the Resident given
opportunity to come before the Senate - 0

He will not be removed but there
is always tomorrow for another try -
The new Speaker of the House will be the
key if other things surface.

In mean time CLINTON has all these
new ^{tax} dollars to promise people if only the
Republican Congress would agree. Oh for
the day with no income tax - Ike paid
his own car fare to check on the troops
McArthur wanted to send to clear the
markets out of Washington - Those were the
good old days before big government
took over our lives - Bring on the elections
for 2000 I will have my say with those
who run and win - As the Russian comic says

"What a Country" Have a Good Day Steve
I hope to hear C Span
next week
