MAR 05 REC'D

① Dear MR. Lamb ²⁰⁰⁰¹ ~~FRANK FURNHART~~ - MAR 28 ANSD

I wish to express my views on South Africa dilemma as I see it.

First of all if the one-man-one vote system comes into being, then that means that the Blacks will rule South Africa, and the ratio there is 26,000,000 Blacks to 8,000,000 Whites. I think ^{that} any rationally thinking white in America & S. Africa knows the problems that we are having with blacks and minorities in general here in America, and they are supposed to only be 12% of our population & yet they comprise most of the convict population here in America.

They ruin everything that they touch, such as our cities, schools, post office and our apt. buildings and housing in general. I know this because I live in a pre-dominantly minority area, and for instance I went to two different stores last week ~~and~~ (drugstore & supermarket) I almost had my purse stolen and my car broke into in broad daylight ^{by Blacks} in a (use to be) small town here in LA Marque, Texas. In this same event two shop-lifters were apprehended (both blacks) in these two stores in the short time that I was there -

② What I am saying is that this small town here in ^{Live in} South-East Texas use to be a safe town to shop in and now that the minorities have dominated the population here, it is no longer a safe small town for a white woman in particular. I have lost the freedom of taking a walk on the seawall due to being chased by a black male, and now I am leery of even doing my shopping in the day time, and this is in a prosperous area with blacks having most of the post office, chemical plant jobs and city jobs, they have plenty of opportunity here, more so than I do thanks to affirmative action policies.

And so I can relate to the South Africa's white peoples dilemma as they have such a huge black population and I know that South Africa is the most progressive nation in all of Africa, and in regards to that matter, why do you & other press members ^{not} show what is going on in the rest of Africa under blacks rule and let us see the contrast? Why do you hide this fact that the rest of Africa is economically unstable, disease-ridden, starving, civil wars, and I could go on and on and this is under blacks ruling blacks in Africa.

I personally think that the reason the whole world is against the white rule in S. Africa is due to - as long as the whites control the diamond mines (De Beers) and the gold & other minerals the rest of the world cannot take them away from those tough old dutchmen - However, if the blacks take them

③ over. Then the nations can get them, probably for a few doses of crack, otherwise why are the nations so advantageously trying to overthrow the white rule. They are not that concerned over Israel's treatment of the Palestinians or the governments of Ethiopia starving their peoples by denying the shipments of food getting through to them, nor I could go on & on.

And so the only logical reason ^{that} I can conclude to - is that the business people (Elitists) of our nations are planning on putting blacks in power so that they can take over the (DeBeers diamond mines & the gold mines & minerals that they have wanted so badly for so many years and were unable to ~~acquire~~ ^{acquire} under the white rule. We'll see, as it is bound to happen. The sanctions will see to that. And what is so bad in S. Africa is that the blacks are mostly admitted communists and even that awful Ted Koppel on his show was calling them comrades.

Also I am so tired of the media portraying that only whites are racist and losing their jobs if they make a mistake, yet the blacks can have their black cottages, their NAACP, ^{and} tell their side of their stories, their Martin Downey Jr's such as Jeraldo, Danaher, Opratts and yet we cannot have one talk show host to represent people that feel as I do, and for some reason most of the whites in the media & politics that could speak for us, act like scared wimps.

What in the world is going on. What has happened to our once courageous men & women, has everyone over-

④ in T.V. & Newspapers running so scared that they will not report both sides of the coin? When are you (media) going to report the whole truth, and when are you going to allow people other than minorities to own & operate T.V. & Radio stations?

I love to read & watch on T.V. ^{your} world events and I am very informed as to what is going on in the world, and I for one would like to see & hear the truth and the whole stories of S. Africa's different peoples including the white conservatives party's views ~~in a~~ in a respected manner just as you tell ~~the~~ Mandela's ANC (communists) ^{party} story with respect, and when you touch on Andries P. Treurnicht's conservative parties views, I wish you would show the same respect ^{to him} as you claim to be reporting the news, not taking sides, in which the media (both TV & newspaper) coverage obviously took sides with Mandela & his party or so it came across on TV in particular. I do not mean you in particular MR Lamb, I am alluding to the T.V. news announcers and ~~the~~ newspaper ~~journalists~~.

Also would you please send me or tell me how to obtain Andries P. Treurnicht (leader of South Africa's conservative party) mailing address as I would like to write to him & tell him that not all Americans are against his views & party.

I thank you,
Hans Lindley

(5)

P.S. Also, MR. Lamb since you are There in Washington, D.C., and you appear more sensiable & likeable than Ted Koppel on Nightline, (I once intended to ask him for these addresses until I ~~SAW~~ ^{SAW} his ^{recent} coverage on South Africa's freeing Mandela), I would like to know who to write to in Washington so that I could ask ^{them} to lift the sanctions being imposed on S. Africa, as I do not believe that all Americans are enthralled with those sanctions. I certainly hate them.

Also please excuse my grammar Thank you:
mistakes, as I do not have time
to re-write or proof read this letter.

Yours Truly
