To Whom It May Concern:

Just a note to commend C-SPAN for your recent program on Northern Ireland, and to urge you to continue covering happenings in this small and neglected area of the world.

There is a group known as the American Irish Political Education Committee (AIPEC) of which I am a member. They have an information number [REDACTED] which you can call for complete coverage of all aspects of the conditions in the North of Ireland both past and present.

Again, thank you for your interest in this important matter.

Sincerely,
