To whom it may concern,

I am writing concerning your program which aired Saturday August 29 about the politics of Northern Ireland. I have just recently returned from Northern Ireland having spent 6 months on a study abroad program. Therefore, I was very interested to see your program. Unfortunately, I only happened to see the last hour of it because I hadn't seen that it was scheduled. I was later informed it had been running all day. I was wondering if you sell videotapes of

of your program as I would like to see the entire program.

In addition, I am in charge of orienting students who will be going over to Northern Ireland and I think the program would be very useful at my University in many ways. If you could, please write to me and tell me whether this is possible. I thought what I saw of the program was well done and interesting questions were being asked.

I was also pleased that you interviewed John Lamper & Colin Miller from the Peace & Reconciliation Office. I had a placement with them while I was living in Derry and found

it to be an enjoyable
experience & I have great
respect for the work they
are doing there. I
appreciated seeing coverage
on Northern Ireland as
I think most Americans
knew very little about it.

My address where
I can be reached is:
