LETTERS TO THE EDITOR
THE DESERT SUN
P O BOX 2734
PALM SPRINGS CA 92263

Mr. Editor:

Herewith is an open letter to The President of The United States. It is my thought you may possibly agree that it is a message that should be shared.

[REDACTED]

WILLIAM J. CLINTON
PRESIDENT OF THE UNITED STATES

Mr. President:

In the course of the past one hundred and seventy one days there has been extensive discussion and debate as to whether the cup of truth you bring to the people of our nation is half full or half empty! The challenge presented to you, Mr. President, is to demonstrate to the people of our nation, that the cup you bring to them is a full cup? If you would extend a full cup, you need only come to the people, for the people are the only wellhead from which government can draw the waters of truth which will slake the thirst of a free democratic nation!

Mr. President, the measure of a man's truthfulness and integrity can be gauged by the excessiveness of his rhetoric! An honest man despises lying, for a liar is loathsome, and brings about his own dishonor and downfall. Truth is the foundation upon which a man's, or a governments honor will be magnified, while a liar destroys all that he is or endeavors to become! The path of truth is an arduous one, but it is the only path by which peoples and their governments can live together in greater harmony, or attain lasting greatness among other peoples and other nations!

Sincerely,
[REDACTED]
