Dear Mr. Lamb:

Friday after Friday you have journalists on your 5A: M.L.A. Time program, that have no-no-no economic background, educational or actual entrepreneurship, other than that they received in that "bolshevik communist" city called Washington, D.C.

For at least 20 minutes the four of you discussed nothing but gossip, meaning less and no depth. One reason you receive irrate ^{callers} Bush supporters. I'd say they were left liberal economic idiots. Now they discuss Constitutional issues. The L.A. Times 7-14-92, had 22 issues from abortion, child support, education, gay rights, health care, welfare, to name a few, all concerning constitutional issues and economics. That's all what the United States is about: Constitution and economics. Our forefathers guaranteed this. They group never discussed either. Even if they gave the liberal interpretation, it would at least be the 1st amendment exercise and then I could respond. None of them have experienced the only important philosophy: Economics.

You would offer off having Rush Limbaugh every Friday so those baseless, no depth journalists could squirm in their seats as that black, political-leftist, from your New York show, did.
(over) See you in Montana, [REDACTED]

Since I got this letter you've had several sessions
and you continue to have economic idiots journalistic
and politically, except Russ Limbaugh. Why don't
you have him every Friday and in the other
chairs have stuffed dummies or better yet animals
that are alive. Russ can handle everything. He is
a middle of ^{the} roader because I'm to the far right.
That's why I'm looking down on the teeter-totter.
