Sunday Eve.

Dear Mr. Lamb

Just finished watching your  
two day program on W-Ray revisited.  
this is television at its very best,  
in fact the most enjoyment ever, for  
me - watching television and you and  
your co-workers should be very proud.

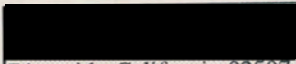

I wonder if your programming  
dept thought about doing the same  
treatment on the 50th Anniversary  
of "Return to the Philippines" and the  
Landing on Luzon on January 5th 1945.  
the consequent recapture of Manila  
and the freeing of both Military POWs  
and Civilian POWs from 1941-1942.

There are many people - men and  
women in this area who were POWs  
and I know many former men who were  
in the military and participated in the  
Japanese defeat and the release of the POWs  
the Bataan Death march and all that  
ensued deserves the same attention and

place in history as did your  
excellent program just finished. My  
unit helped in the liberation of Santo  
Tomas prison of our POWs in Manila  
and it was indeed an historic time.

I am enclosing a self-addressed  
Envelope - Could you send me information  
on how I could order the Vera Lynn  
music you used on your program.  
I would appreciate it, very much

Thanks again -
