Dear C. Span

I hardly ever miss your morning program. I enjoy hearing people express their feelings from all parts of the U.S.A.

The TV + news media does not portray how the majority of American people really feel - They get on one subject + you'd think there wasn't another living soul.

Anyhow I'm surprised that no one has brought up the subject of why Medicare has problems etc - It's the inflated costs of Drs + hospitals - There should be a guide or a ceiling on what certain things cost - give or take, here + there - My Dr. charged 50.00 (in 1950) to deliver my daughter, + now it costs thousands + they push them home in 24 hrs -

During WW II we had
ceilings on food etc. - Can't
we stop this inflation
some where - Why can't the
govt stop these huge
Corporations from milking
the common people dry.
Keep up the good work.

P.S. I'm for Pat Buchanan
Stop foreign aid + NAFTA
& Close our borders. - or at
least put some of our troops
there instead of all over the
globe.
