THE HONORABLE BRIAN LAMB  
C-SPAN TELEVISION  
400 N. CAPITOL ST., NW #650  
WASHINGTON, DC 20001

Dear Mr. Lamb:

It has come to my mind that my single handed effort to persuade the people of our nation to consider you as a candidate for The Presidency in 1996 may lead you to think that my effort is only the prattling of a psychotic old man. Possibly I may have a lack of formal education and may have trouble constructing my words and sentences, or the proper use of punctuation, but I plead not guilty to being psychotic! I do believe, I have the ability to judge the character, the capability, the integrity, as well as making the judgement that "YOU" would use your vast storehouse of knowledge to lead our nation from the course it is seeminly on today. I pray I can ignite the spark that will result in bringing about a wildfire that will sweep you into The White House in 1997! I believe we have a better chance of winning with you than I would have of beating the odds and winning the California State lottery.

Mr. Lamb, I am sure there are other men whom may possess equal qualifications to lead our nation, but of those whom may possess such qualification, none have come foreward and demonstrated those qualifications as well as yourself. By the very fact that over these past years that you have nurtured and have brought C-SPAN to the medium that it has become today attests to your leadership ability. With you, we have had the opportunity to see, even to reach out and touch, so to speak, those qualities we the people of this nation seek in national leadership. I believe you are a man whom can put aside the politics of partisan politics, a man whom can be The Leader and The President of all of our people! Mr. Lamb, YOU ARE A LEADER, a leader whom has the ability to bring a diverse nation together in such unity as this nation has never known.

Mr. Lamb, my wife and I are entering soon into the fourth decade of our marriage and our life together. We have never had children. I tell you this because I write for a small weekly newspaper in our hi-desert community. It is basically a political publication. In writing my pieces I have created, my readers are not aware of it, a mythical great-grandson, whom is invaluable to me in my effort to write a column that is both politically as well as family oriented and interesting.

I am enclosing herewith my copies for the weekly editions that will be published November 17 and November 24 respectively. As you will determine, my principal interest involve children and the politics that involve them. CHILDREN! ! ! Are not children, in reality, the monuments we construct to our being what we adults have accomplished with our own attempts at being what we have become? Mr. Lamb, there is even now national debate, including President Clintons crime bill soon to come before The Congress, that the answers can only be solved by the construction of more and more prisons, reform schools and boot camps for our teen agers! Surely these are not the answers! I do not suggest that the answers can be found or corrected overnight as many of our citizens do, more prisons, reform schools and boot camps are not the answer. It has taken more than fifty years, since the Japanese bombed Pearl Harbor, to destroy our youth! If it is anyone whom should occupy these prisons, reform schools and boot camps, it is "WE" for we have created what our children have become and are becoming.

Humbly,
