

# INVENTORS & SCIENTISTS

Albert Einstein (1879-1955), German-American scientist and one of the greatest theoretical physicists of all time. Best known for the special and general relativity theories, Einstein was also a pioneer of quantum theory and made important contributions to the kinetic theory of matter and the theory of specific heats. He was also a renowned humanitarian and an accomplished amateur violinist.

C-Span  
You may be interested  
to know, TCI is dropping  
C-Span 2 in Chicago during  
the week-ends 10.00-11pm  
beginning July 6, 1996. I  
have written to TCI to  
protest this as well as Chicago  
Sun-Times as well as congress  
man & SENATORS. Will there be  
a time when C-Span 1 + 2 are  
assured a permanent station  
on cable.
