NEEDLES DISTRICT

Canyonlands National Park, Utah

Aerial view of the Needles district in the southern section of Canyonlands National Park.

Color by Lin Ottinger, Guide

Dear Brian,

This view of the Needles gives an overview of a very, very special part of canyonlands.

Last week a friend from Va. I hadn't seen since high school flew out to backpack At our 30 year reunion he was captured by my carrying on about Canyons. He said it was, "the experience of his life."

The lack of coverage of late on the ME - since the Machi conference unfolded - has been quite distressing - perhaps my greatest disappointment to date with C-SPAN.

The Center for Policy Analysis on Palestine is holding a 2 1/2 hour symposium with Sari Nusseibeh of Jerusalem - a very articulate Palestinian and John Quigley - the foremost expert on the legal status of Jerusalem. Please cover this

Conference on Nov. 12 at the Watergate Hotel, Also Harold Saunders of AEI & Pres. Carter are being over-looked by the main media. Both are ME experts. Sincerely, [redacted]
