Dear O-SPAN;

Thank you! The unbiased political programming is such a refreshing change.

Is it at all possible for you to schedule a panel discussion on Civics? Its a subject most of us are required to take in High School but forget as soon as the final test is done because we assure ourselves Democracy is Forever.

So many of the truisms do explain what is happening to our government.

"The only way to go from one form of government to the next is to completely destroy the first."

(To bring in the New World Order all known governments have to be destroyed including ours.)

"The surest way to bring down a standing democracy is to make mockery of it." Dan Quayle, Clarence Thomas Hearings, Iran - Contra & etc.)

"Bad legislation must be hidden - Good legislation survives scrutiny."
(Each scandal hides something bad.)
(Mostly repressive legislation)

"There are 10 steps to dismantling a democracy."

1. Break national coffers.
2. Remove hidden resources.
3. Divide the people
4. Remove hope
5. Promote despair
6. Consolidate wealth
7. Decimate the will of the people
8. Mandate away the rights
9. Anger the people

10. Declare martial law

"Anarchy is as destructive as war."
(No domestic policy or agenda)

"The last thing the upper class wants is an educated lower class."

"Beware the puppet master - he pulls the strings." (Some people take their titles very literally.) *hip?

"Slavery is always fashionable to those who would be a master."

"Those who do not participate in their democracy, aid and abet the enemies of democracy."

"Some confusion is natural. Other confusion may be organized for a purpose."

"There will always be those who believe they would fare better in a different system so will try to bring about that system."

"A class system will not work unless there are more than two classes of people in the system." (Those who pay 15% and those who pay 28% taxes.)

"A nation is only as rich as its poorest citizen."

I'm sure the panel and viewers will be able to remember more truisms. It ought to be a very lively program. Thank you again - For everything.

Sincerely
