CSPAN - Road to the White House.

Your monthly series is mind-boggling to us! In our President's very first moments in office you decide to provide a free public forum for republicrats and their propaganda against him! Where was this free forum for Democrats during the twelve years of republicrat rule?? No where!!

On today's episode you let Cheney ramble on from a tape made weeks ago — and you promise that we will finally get a few glimpses of our President on his trip to California. We wait & wait and lo & behold there's no coverage of Bill — surprise! You were just lying about that — instead we get ~~NASA~~ ^{+ hours} photos for hours; with the preface that you're interrupting this taped program for NASA crap!

You didn't interrupt Cheney, did you? — no — he got his own words and just fine — what you did cut was our President's visit to our important state!!

Now convenient! Your Big business-owned cable network is so blatantly biased against this Democratic President! We waited & waited for any coverage of his speeches while here but you withheld them purposefully from us.

We are writing our complaints re: CSPAN to the FCC.

CC: FCC

Sincerely,
