Just a note to congratulate you and C-Span staff on how the standards you have maintained this far - my yesterday's view of Dave Brock.

You are now on the level of "Hard Copy" "National Enquirer" etc. How wonderful! (Is Oprah coming on next? Aren't you proud.)

It was disgusting to see Brock and it was worse listening to him.

But I think you should know I voted for President Clinton and support him 100%. I will vote for him again. And he will win. Multiply me - by millions of others out there.

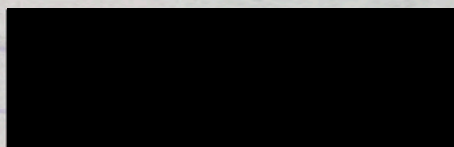

You must tell those folks in Ashington and the people on yr staff that manipulate the phones; people like myself are wise to everything that is happening.

and your gay to lose because
there's more of us than there are of you.

Brian - do you know the
street from Brock and C-Span
invaded my whole house
yesterday and even my cats
refused to use their litter
pans thinking Brock had been
there first.

Happy Holiday!

P.S. I'm still spraying!
