Dear Brian,

Someone took the time to prepare the information to put on the screen who the host is, the least they could do is leave it up long enough to read not just flash it on & off (particularly Saturday, when you have "Guest Host")

Incidentally, after our discussion I requested the Chamber of Commerce to send you information on the "Jet Capital of the World - Palmdale California". I never received any

feedback from anyone.
If you didn't get it, I
will have them send it to you

Sincerely
