Dear Sirs;

I have really enjoyed watching C-Span since 1985. I enjoy the congress hearings and the talk shows you have on C-Span. I am especially happy that you donot show commercials like many of the other networks do. Several questions comes to my mind when I watch C-Span. Where do you get the money to stay on the air? I watch I believe several months ago a discussion on cable TV. with Ralph Nader and another guest. Do you have Ralph Naders address where I can write to him? Finally on the subject on cable TV. it seems to me that the cable company I subscribe to doesn't care and would like to fizzle out public access. In fact there are 17 communities that my cable TV. company goes out to and non have any public access. At the head end which is in Oak Park, Ill. wrote a lengthy access rules which the other 17 communities has to share the same facility. I have complained to the Cable Company and to the trustees in my town but seems like they dont care at all about this. Who can I complain to as far of public access is concerned. Any how I enjoy C-Span because public access should come first!
over

Your answer is greatly appreciated,

Sincerely,
